

Baking Recipe Keeper

Product Roadmap & Monetization Plan

Sweet plans ahead ✨

Where we are 📦 — A solid core: recipes with ingredients & baking procedure, metadata (servings / prep / bake / difficulty), live scaling, share, search & filters, a dashboard with drill-down, reorderable steps, light/dark theming with a caramel brand palette, snackbar feedback, and reliable Room storage with migrations.

Feature Roadmap (Phased)

Phase 1 — Complete the core app

Free · Retention

- 🧁 Favorites ★ + Favorites tab/filter
- 🧁 Duplicate recipe (great base for variations)
- 🧁 Bottom navigation (Home · Favorites · Categories · More)
- 🧁 Shopping list — aggregate & de-duplicate ingredients into a checklist
- 🧁 Export & print — text, CSV, PDF
- 🧁 Media — multiple photos + a short procedure video, full-screen viewer
- 🧁 “Start Baking” mode — full-screen, screen-on, per-step timers
- 🧁 Backup / restore (JSON), empty-state art, onboarding, tags

Phase 2 — Accounts + Cloud

Unlocks subscriptions

- 🧁 User accounts (Google / email)
- 🧁 Cloud sync & backup across devices
- 🧁 Unit conversion (g↔oz, ml↔cups) & smart scaling
- 🧁 Meal / bake planner + reminders
- 🧁 Import recipe from a URL, and photo/OCR → recipe

Phase 3 — Learning + Community

Expands audience

- 🧁 “Learn to Bake” hub — techniques, glossary, tips, fixes
- 🧁 AI assistant — substitutions, troubleshooting, auto-scaling
- 🧁 Community — publish, rate, comment, follow, collections
- 🧁 Shareable web links + landing page (open in app / “Get the app”)

Phase 4 — Scale + Platforms Growth

- 🧁 Creator marketplace — sell/curate recipe packs (revenue share)
- 🧁 iOS + Web (Compose Multiplatform)
- 🧁 Localization (languages, metric/imperial)
- 🧁 Home-screen widgets, WearOS timers, voice hands-free

💰 Monetization — Freemium + Subscription

Free

\$0

- 🧁 ~15-25 recipes

- 🧁 Premium themes • no ads

Lifetime / Family

~\$40-60 once

- 🧁 One-time unlock option
- 🧁 Shared library (household)
- 🧁 Great for classes / cafés

Other revenue streams

- 🧁 Affiliate links on ingredients & tools (Amazon, baking supplies)
- 🧁 In-app purchases — recipe packs, seasonal collections, theme packs
- 🧁 Creator marketplace revenue share (Phase 4)
- 🧁 B2B — license to baking schools & classes

How: Google Play Billing for subscriptions, a paywall gating premium features, an *isPremium* check, and analytics to track conversion.

Useful to Every Baker (& Cook)

- 🧁 **Beginners:** guided Start-Baking mode, glossary, technique videos, timers, AI “why did this fail?”
- 🧁 **Experienced:** scaling, unit conversion, yield math, notes & versioning, export/print
- 🧁 **Cooks:** broaden to savory recipes — a general recipe keeper with a baking heart
- 🧁 **Everyone:** cloud sync, shopping list, social sharing

✅ Suggested Order

- 1 Phase 1 core (Favorites, Duplicate, Shopping list, Export/PDF, Start Baking) — makes it sticky
- 2 Accounts + cloud sync — the #1 reason people pay
- 3 Play Billing paywall + free-tier limits — turn on revenue
- 4 AI assistant + community/links — differentiation & growth
